Subject: **Announcement of legal merger effective 1 June 2026**

Dear Sir / Madam,

We are writing to inform you of an important organizational change within the Reddion Group. As of 1 June 2026, the legal merger between Post Luchtkanalen B.V. and Vink Systemen B.V. (trading as Vink Projects B.V.) will take effect, with both entities continuing as a single new entity: **Reddion Projects B.V.** We consider it important to inform you, as a valued partner, in a timely and comprehensive manner about what this merger entails, what will change for you, and – importantly – what will not.

Legal merger

The legal merger follows a statutory process in which two icons in the ventilation industry are absorbed into a single acquiring entity: Reddion Projects B.V. The merging companies will cease to exist as independent legal entities; all their rights, obligations and contracts transfer by law – automatically and without any further action required – to the acquiring entity: Reddion Projects B.V. For you as a supplier, this means in practice that existing agreements and ongoing contractual arrangements will remain in full force.

Two project locations

As of 1 June, the former entities Post Luchtkanalen B.V. and Vink Systemen B.V. will continue as **independent project locations in Rosmalen and Katwijk**. Both project locations remain independently capable of placing requests, creating purchase orders, and entering contracts. Operationally, nothing changes; each location retains its own identity, the same people, the same expertise, the same approach.

Administrative changes

Our services continue without interruption, and your regular contacts remain available. We do ask that you update the administrative details below in your systems as of 1 June 2026. Invoices must be addressed to the new entity from that date onwards. Existing purchase orders are retained.

Any required (legal) documents and the latest status can be found at www.reddion.com/fusie. For any further questions about the merger and/or the related administrative changes, please contact us via fusie@reddion.com.

Reddion

The merger into Reddion Projects B.V. is not merely an administrative step – it is a deliberate choice to combine our strengths. Through this consolidation, Reddion is better positioned to deliver diverse projects and can invest more in people, equipment, and innovation. At the same time, we take a moment as a team to reflect on the farewell to two icons that have shaped the ventilation industry in the Netherlands – Post Luchtkanalen and Vink Groep. A rich history and legacy to be proud of. We carry that pride into everything Reddion Projects B.V. will build. Together with you, we look ahead with great confidence.

Upcoming communication

On 1 June, a press release will be published through our (online) channels, officially announcing and explaining the merger. For current information about the merger into Reddion Projects B.V., the project locations, and contact details, visit www.reddion.com/fusie.

We thank you for your trust in Reddion and in particular Reddion Projects.

Kind regards,

Reddion Projects B.V.

Wilbert Bekendam,
General Manager
