

Press release

Reddion and Post Luchtkanalen Polska continue independently under well-known industry entrepreneur Marco Koster

Katwijk / Poznan / Rosmalen – Ventilation technology partner *Reddion* and *Post Luchtkanalen Polska* will continue independently under a new owner: *Sagrestano Investments*, the investment company of industry entrepreneur Marco Koster. Marco Koster is acquiring the companies from *Steboma Holding*, of which *Waterland Private Equity* is the majority shareholder.

Reddion and *Post Luchtkanalen Polska*, the leading partners for ventilation technology in the utility and industrial sectors, have a healthy and growing project portfolio with solid, long-standing clients. The acquisition fits the ambition to keep investing in continuity and growth from that position. Nothing changes in day-to-day practice for customers, partners and employees; the operations of *Reddion* and *Post Luchtkanalen Polska* remain unaffected.

Industry entrepreneur Marco Koster has been active in ventilation technology for more than 30 years, as part of *Steboma Ventilatietechniek*, *Reddion*'s sister company. *Steboma Ventilatietechniek*, which focuses on residential construction, remains fully owned by *Steboma Holding*.

"This acquisition confirms the confidence in the results and colleagues of *Reddion* and *Post Luchtkanalen Polska*. Over the past few years, I have come to know both companies from the inside: a strong foundation, a successful transition to *Reddion*, and teams that are ready for the next phase. With confidence, we are taking that growth step together," says Marco Koster.

General Manager Wilbert Bekendam has been on board since January 2026 and has set a clear course from the start: being a stable and reliable ventilation partner for clients, completing the transition to *Reddion*, and growing by making the most of the strengths of the Katwijk, Poznan and Rosmalen locations. "With *Sagrestano Investments* as owner, we have the room to continue our course, and we gain an entrepreneur on board who knows the industry well. Marco Koster is also familiar with the teams and can think along well with management, further strengthening our organization," says Wilbert Bekendam.

About Reddion

Reddion is a leading European group in ventilation technology for the utility and industrial sectors. *Reddion* builds on more than 75 years of experience across the full chain: from production and supply to project management and installation. The group has more than 250 colleagues across two project locations in Katwijk and Rosmalen, and two production facilities: *Reddion Products* in Katwijk and *Post Luchtkanalen Polska* in Poznan, Poland. *Reddion* delivers high-quality, reliable and sustainable ventilation solutions for a wide range of applications, with a strong focus on quality and safety.

About Sagrestano Investments

Sagrestano Investments is the investment company of Marco Koster and focuses on businesses with a strong starting position and a proven track record. Taking a long-term view, *Sagrestano Investments* invests in the further development of these businesses, with attention to both operational continuity and growth. Ambition and trust are central to this approach: trust in the team's delivering the results, and the ambition to take the next step together with them.
